

SINGLE-PHASE VACUUM CLEANERS FOR DUSTS AND LIQUIDS

- ✓ Fitted with 1, 2 or 3 by-pass motors
- ✓ Ideal for use in many industries
- ✓ Compact and mobile
- ✓ Steel construction for long life

VACUUM CLEANERS FOR THE PHARMACEUTICAL AND FOOD INDUSTRIES

- ✓ Solutions to prevent cross-contamination
- ✓ Full compliance with GMP requirements
- ✓ Modular and compact for integration on the machine
- ✓ Ideal for maintenance and cleaning of production systems and lines
- ✓ H14 filtration for maximum safety

ATEX-CERTIFIED VACUUM CLEANERS

- ✓ Wide range of certified vacuum cleaners for zones 1, 2, 21, 22
- ✓ Exclusive zone 20 certification inside the vacuum cleaner
- ✓ Maximum safety when vacuuming explosive and/or conductive dust
- ✓ Also available in a compressed air supply version

THREE-PHASE VACUUM CLEANERS FOR HEAVY-DUTY SERVICE

- ✓ Suitable for 24/7 maintenance-free work
- ✓ Range up to 25 kW with built-in pressure relief valve
- ✓ Ideal for any heavy-duty use and centralized systems
- ✓ Suitable for vacuuming solids and liquids
- ✓ High filtration efficiency

VACUUM CLEANERS FOR FINE AND HAZARDOUS DUST

- ✓ Collection and safe disposal of the dust in Longopac bags for continuous use
- ✓ TÜV certificates and with L, M, H14 filters
- ✓ Adjustable height for easy transport on vehicles
- ✓ Certified operator safety

VACUUM CLEANERS FOR SUSPENDED DUST

- ✓ Prevents the dispersion of dust in the work environment
- ✓ Can be integrated for localised and on-board machine vacuuming
- ✓ Available with one or two extraction arms

VACUUM CLEANERS FOR OIL AND CHIPS

- ✓ Recovery and reuse of lubricants and emulsions
- ✓ Maximum cleanliness and efficiency of machine tools
- ✓ Reduced machine downtime
- ✓ Efficient separation of chips from oil for correct disposal

COMPRESSED AIR VACUUM CLEANERS

- ✓ Ideal for low electricity applications
- ✓ Low compressed air consumption
- ✓ Wide range for the extraction of dusts, solids and liquids
- ✓ Also available with ATEX certification for hazardous areas

HOPPERS AND SEPARATORS

- ✓ Greater vacuum cleaner autonomy
- ✓ Reduced workload for filters, which stay cleaner for longer
- ✓ Increased motor protection and longevity
- ✓ Greater efficiency of the vacuumed material collection process
